## Projects

### E-Commerce Website using Django

- This project is an online shopping platform built using **Python (Django Framework)**. It allows users to **browse products, add to cart, place orders, and make secure payments**. Admin can manage products, categories, and orders through a dashboard.

### Recipe Sharing Platform using Django

- Developed a “Recipe Sharing Platform” using Django that allows users to securely post, edit, and view recipes with images and categories. Implemented user authentication, image uploads, and comment features using Django’s MVC structure

### Figma

- Designed responsive website templates, banners, and logos using Figma with a focus on clean UI, user experience, and branding consistency.

## Core Skills
