ABOUT ME

Dedicated and work-oriented individual, currently pursuing a Diploma in Cyber Security. Eager to start a career in Web Development and Cyber Security with a strong foundation in full-stack development, problem solving, and innovative thinking.

AREAS OF INTEREST

- Network and System Security
- Ethical Hacking and Penetration Testing
- Cyber Threat Analysis

PROJECTS

E-Commerce Website using Django:

This project is an online shopping platform built using Python (Django Framework). It allows users to browse products, add to cart, place orders, and make secure payments. Admin can manage products, categories, and orders through a dashboard.

Recipe Sharing Platform using Django:

Developed a “Recipe Sharing Platform” using Django that allows users to securely post, edit, and view recipes with images and categories. Implemented user authentication, image uploads, and comment features using Django’s MVC structure.

Figma:

Designed responsive website templates, banners, and logos using Figma with a focus on clean UI, user experience, and branding consistency.
